## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Fillmore.

Fillmore shows a valve comprising a skirt 42, 34, ring cap 20 a dome having cuts 46 the tubular skirt having a first portion 34 smaller in thickness than a middle portion 54.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Lohrman, Schwanenberg and Newton et al were cited to show further examples of closing valves where only the dome moves.
